

DD/R-574-63

April 4, 1963

Dear Bill:

Reference is made to your letter of November 30, 1962, bringing to our attention an interesting idea. As I indicated in my interim answer, that idea was sent to the people in our organization who follow such developments. I have received their comments which unfortunately I cannot send in the clear, but they seem interested and are making appropriate contacts with ARPA to try to participate in any field tests that may be contemplated. If their interest grows, they have their own methods of making contact, and I shall drop out of the picture at this time.

Thank you very much for your interest in forwarding these ideas.

Sincerely,

SIGNED

Edward B. Giller
